LILIUMS.

Easter in 1901 comes April 7th.

Candidum, Harrisii and Bermuda grown Longiflorum are now ready for delivery (Japanese Longiflorums expected end of September); other varieties as soon as matured, which is usually late October or early November.

HARRISII. The Bermuda Easter Lily.

Our stock of this important variety is grown especially for us by a most reliable grower, from selected stock, and nothing finer in quality can be had. The most profitable of all bulbs for the Florist, especially for early forcing, for which purpose the 5 to 7 inch bulbs are best adapted. We regret that on account of the failure of crops of the larger sizes of both Lilium Harrisii and Longiflorum, we are unable to offer any larger sizes than are mentioned below.

Our Japanese Longiflorums came from same source as those we sold last year, and which gave grand results.

DREER'S Wholesale Price List of Plants for Florists.

Our stock of decorative plants, such as Palms, Ferns, Pandanus, Ficus, Araucaria, etc., etc., is now very complete in a full line of sizes, from small seedlings for growing on, to specimens of the most useful decorative sizes. The plants are all in a clean, healthy, vigorous condition, thrifty and well-grown.

Our Measurement of Plants, where given, as in the case of Araucarias, Palms, etc., etc., means the height of the plant from the top of the pot to the top of the plant in its natural position. We make this explanation of our way of measuring, as many growers contend that the proper measurement is from the bottom of the pot to the tip of the longest leaf, and make their offers in that way.

An Invitation. Whenever possible, we solicit a personal inspection of our stock. Our Nurseries at Riverton, N. J., are within easy reach from either Philadelphia or New York (Time Tables on application), and something of interest will always be seen. We have considerably increased our facilities for the handling of Aquatic Plants, and our Water Lily Garden is now the largest and most complete in the world. This alone is well worth a visit from the most distant points. Aquatics are at their best from early July until late September. The collection not only includes large lots of the most popular sorts, but all the latest introductions and many new sorts of which we possess the entire stock, and which have not yet been disseminated; the different varieties of Victorias luxuriate here, and from present indications feel safe in saying that one or more sorts will be found in flower any day during the season.

AGERATUM STELLA GURNEY.

Acacia Armata.

A pretty spring flowering variety which produces its flowers in globular heads from the axils of the foliage in such a manner as to completely envelop the plant in a pleasing light yellow; an excellent plant for Easter forcing, succeeding under the same culture as the Azaleas. A nice lot of bushy plants in 5 inch pots. 12 to 15 inches high. 40 cts. each; \$4.50 per doz.; \$35.00 per 100. Ready in October.

Ageratum Stella Gurney.

This variety originated with Mr. James Gurney, of the Missouri Botanical Gardens, where it has been used extensively as bedding plant the past two summers. It is a decided improvement in color, being the deepest blue yet introduced and is exceptionally free flowering, not only in summer but the year round.

75 cts. per dozen; \$6.00 per 100.

Allamanda Williamsii.

This handsome variety is entirely distinct from all others, being quite dwarf and in no way resembling a climber, but forming a compact bush with trusses of bloom at every point, and having from two to four expanded blooms on each extremity at the same time and buds innumerable. It continues flowering the whole summer, and, with proper management, in the winter also. The flowers are of a very rich yet delicate tint of yellow deliciously scented. 3 inch pots, 15 cts. each; \$1.50 per dozen.

Aspidistra Lurida Variegata.

A fine lot of 5 inch pots. 50 cts. each; \$6.00 per dozen.

ARAUCARIA EXCELSA.

Scherzerianum Rothschildianum. Creamy white spotted with crimson. \$1.50 each.

Scherzerianum Sanguineum. Crimson. 75 cts. each.

(Norfolk Island Pine.)

Our stock of these is exceptionally large, especially in small and medium sizes, for which there is always a strong demand.

5 inch pots; 10 inches high, 2 to 3 tiers, \$1.00 each.

Aristolochia Sturtevantii.

(Duck Plant.)

The most curious and interesting of all Aristolochias, the flowers are heart shaped, 8 to 10 inches in diameter, of a creamy white color, the interior beautifully mottled with deep claret purple, deepening towards the throat to solid purplish maroon. An exterior view of the flower resembles a duck, hence the name.

4 inch pots, 50 cents each; \$5.00 per dozen.

ASPARAGUS SPRENGERI.

Aralia Chaubrieri.

A pretty decorative plant with finely divided bronzy green foliage; makes a fine exhibition plant. Strong 6 inch pots, \$1.00 each; 7 inch pots, \$1.25 each.

Aralia Sieboldii Variegata.

Strong 4 inch pots, 50 cts. each.

3 in. pots, \$1.00 per doz.; \$8.00 per 100; \$70.00 per 1000.

Hardy Azalea Mollis.

For Forcing.

These varieties have for many years been very popular for forcing in Europe, and have in recent years met with considerable favor here in the United States, and when better known are certain to gain in popularity, especially for early forcing.

We are handling the stock of one of the most successful specialists, and can supply in November fine bushy plants, 12 to 15 inches high, finely set with buds, \$4.50 per dozen; \$35.00 per 100.

Bougainvillea Glabra Sanderiana.

A nice lot in 3 inch pots of this useful plant. \$1.25 per dozen; \$10.00 per 100.

SPECIMEN AZALEA.

Import Orders for

AZALEAS

Special Prices for Immediate Orders.

We are now booking orders for fall delivery. Buyers who use a quantity of this most popular Easter blooming plant will find it to their interest to place their orders for next season's wants early, thereby securing the choice of the stock at lowest cost for transportation, as the plants can be forwarded with perfect safety during October, by fast freight, even to the most distant points.

Our growers in Belgium are among the most successful men handling Azaleas; they have been specialists in this line for many years, and their principal stock is sent to us.

All of our importations of Azaleas are sent here in bulk, and are all repacked at our own nurseries, so that any plants that may have not carried well are set aside. This insures our customers of securing only first-class stock, which cannot be compared with cheap assorted case lots, which are made up in Belgium and are distributed on this side just as received, frequently not only containing damaged plants, but also, as a rule, many varieties not at all suited to the American trade.

The varieties we supply are only the most popular sorts suited to the American market. Our own representatives make personal inspection of the plants in Belgium previous to shipment, thus enabling us to guarantee satisfaction.

New Begonias. (*Gloire de Lorraine*.)

Undoubtedly the greatest gem in winter flowering Begonias yet introduced. It grows from 12 to 15 inches high, forming naturally graceful bushy specimens, which from October to April are completely smothered with soft rosy-pink flowers. It is an especially valuable plant for the holiday season. Plants less than 10 months old having been sold in 6-inch pots in the eastern cities last Christmas at from \$5.00 to \$10.00 each.

We offer 2½ inch pots, 30 cts. each ; \$3.00 per doz. ; \$20.00 per 100.

Light Pink Lorraine.

This is a sport from Gloire de Lorraine with flowers of a lighter and possibly more pleasing shade of pink. The plant is of a decidedly stronger growth and florists who handled it last winter claim that it is hardier and holds its flowers better under unfavorable conditions than the original type. Tuberous-Rooted Begonias.

(Ready in December.)

The strain of Tuberous-Rooted Begonias we offer is too well known to require lengthy description, suffice it to say that we have used the same care this as in previous seasons, to select only such strains that are certain to give satisfactory results. The bulbs are of good size, well ripened, and first-class in every respect.

Note the reduction in prices, which are as low as is consistent with good quality ; the retail florist who is growing a few hundred bulbs for his spring trade, to sell over the counter in bloom, will find many of the cheap indifferent strains now offered dear at any price. We offer but one quality, and that is the best.

Single Varieties in Separate Colors. Crimson, scarlet, white, rose, yellow and orange. 40 cts. per doz ; \$3.00 per 100 ; \$25.00 per 1000.

Single Varieties in Choice Mixture. 35 cts. per doz ; \$2.50 per 100 ; \$22.00 per 1000.

Double Varieties in Choice Mixture. 50 cts. per doz ; \$4.00 per 100 ; \$35.00 per 1000.

The prices hold good only for early orders.

DEUTZIA LEMOINEI.

Deutzia Lemoinei.

Without doubt one of the most important new hardy plants offered in many years. It is a hybrid between *D. gracilis* and *D. parviflora*, and has the advantage over the former of having flowers nearly three times as large, which are produced in broad-based, cone-shaped heads of from 20 to 30 flowers each, and are of purest white, which open out very full. It is perfectly hardy, and will not only prove a valuable plant for the garden, but is certain to become one of the standard plants for forcing into flower in winter, more especially at Easter. Extra heavy two year old plants for forcing, suitable for 6 and 7 inch pots, \$1.25 per doz.; \$10.00 per 100. Strong one year old plants, 75 cts. per doz.; \$6.00 per 100.

Deutzia Gracilis Rosea (NEW).

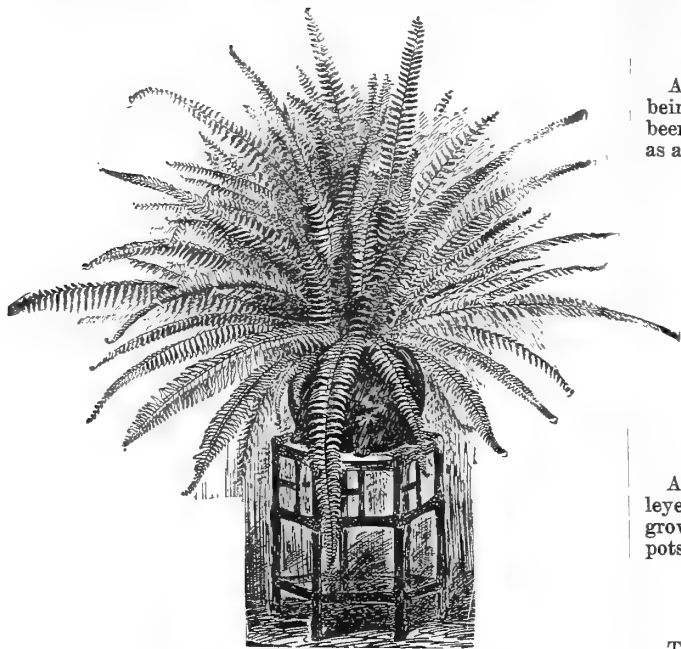

Identical with *Deutzia gracilis* in general habit, but with flowers fully double the size of that graceful variety, to which is added the additional charm of being suffused with a delicate rosy tint just sufficient to relieve the dead white which is objectionable in the type, and which will undoubtedly place it in the front rank of shrubs for winter forcing. A limited stock of one year old plants, \$2.00 per doz.; \$15.00 per 100.

Dieffenbachia Bausei.

One of the prettiest of the genus, with yellowish green foliage, which is margined and irregularly blotched with dark green, and profusely spotted with white; a fine green-house decorative plant. 3 inch pots, 30 cts. each; \$3.00 per dozen.

Dichorisandra Angustifolia.

A choice addition to our ornamental-leaved hot-house plants, growing about 12 inches high, with lanceolate leaves, the under side of which is rich, dark purple, while the upper side is marked with white lines on a purple ground. 75 cts. each.

BOSTON SWORD FERN. (See offer on page 15.)

Adiantum Canadatum and Adiantum Dolabriformis.

Two pretty species especially adapted for baskets. They are of a peculiar creeping or drooping habit, with long fronds, at the ends of which young plants are produced.

3 inch pots, \$1.25 per dozen; \$10.00 per 100.

Adiantum Rochfordianum.

A most desirable form of *A. cuneatum* with somewhat larger pinnæ of a darker green color, forming a more compact plant, especially valuable to grow as a pot plant.

2½ inch pots, 75 cts per dozen; \$5.00 per 100.

Alsophila Australis.

We have again this season a fine supply of this useful, quick-growing Australian Tree Fern, and offer strong

Aspidium Tsussimense.

Without question the most valuable of all Ferns yet introduced for Fern-dishes; of strong but dwarf and graceful habit; of good color and of better keeping quality than any other fern we know. Heretofore we have been able to offer this variety only in limited quantity, but this season our stock consists of nearly 60,000 plants, and are therefore able to quote it at a popular price.

Asplenium Bulbiferum.

This variety is but rarely seen in this country, but is grown in large quantities in Europe, especially in England, where it is considered one of the most important Ferns for house decoration; it is a most valuable variety to grow into 5 or 6 inch pot plants.

We offer a fine lot in 3 inch pots.

\$1.00 per dozen; \$8.00 per 100; \$75.00 per 1000.

Fine Ferns.

As usual our stock of Ferns is very large, about 500,000 being now in pots ready to send out. Our collection has been especially selected for florists' use, discarding all such as are only useful in a botanical collection.

4 inch pots, \$2.50 per doz.; \$20.00 per 100.

Adiantum Rhodophyllum.

This variety is always scarce, and while it does not compare with *Farleyense* in a large specimen, in a small plant it resembles it very much, and has the advantage of succeeding under ordinary cultivation.

Cibotium Schiedei.

This is undoubtedly the finest of all Tree Ferns for use in decorative purposes, and, though appearing very soft, is in fact very hardy, as has been demonstrated by the leading decorators in all the Eastern cities, succeeding admirably as a house plant, which is not the case with any other Tree Fern. It possesses a graceful and delicate appearance that is found in no other plant. It is a variety that is always scarce and difficult to obtain. We have succeeded in growing a fine lot of this variety, and offer beautiful decorative plants of it.

It is only at rare intervals that we are able to offer this handsome Fern in quantity. We have a fine stock this season in 2½ inch pots.

75 cts. per dozen; \$6.00 per 100; \$50.00 per 1000.

Microlepia Hirta Cristata.

We consider this one of the finest Ferns in cultivation to grow into specimen plants, and while it is of such a delicate, graceful appearance, that would lead one to think that it was useless as a house-fern, it is, nevertheless, one of the best for this purpose, and when well grown meets with as ready sale as the popular Boston Fern. It is seldom that we are in a position to offer it in quantity; this season our stock is exceptionally large, which enables us to offer it at the following low prices:

DRACÆNA GODSEFFIANA.

Dracænas.

Godseffiana. One of the most striking ornamental foliage plants of recent introduction. The plant is of an entirely different habit and appearance from all other Dracænas; of free-branching habit, and throws out many suckers from the base so as to form beautiful, compact, graceful specimens in a short time. Its foliage is broadly lanceolate, 5 to 6 inches long, and 2 to 3 inches wide; of a strong, leathery texture; rich dark green color, densely marked with irregular dots and spots of a creamy white, not unlike an Aucuba Japonica; will undoubtedly be grown extensively for decorative purposes when it becomes more plentiful, as it is very hardy as a house plant, equaling, if not surpassing in this respect, the Aspidistra and Ficus.

It is altogether different from anything heretofore known in the way of Dracænas. Good young plants, 3 inch pots, 25 cts. each; \$2.50 per dozen.

One of the prettiest tender climbers, with yellow flowers resembling that showy orchid *Oncidium varicosum*. These are produced very freely during the entire summer months. A beautiful Bromeliad with light green foliage, transversely marked with brownish black bars. It throws up a tall spike of brilliant scarlet bracts from which the yellow flowers are produced. The rich coloring of the bracts continues for a long time. An excellent house plant in every way, as it does not suffer from a dry atmosphere. 35 cts. each ; \$3.50 per dozen.

Yucca Filamentosa Bicolor.

Everyone is familiar with the common Yucca or Adams Needle, a plant with evergreen foliage and tall spikes of creamy white drooping, bell-shaped flowers, which are produced in the greatest profusion during mid-summer. In the variety here offered is added the additional charm of beautiful variegated foliage, the leaves being longitudinally striped with yellow. A pretty and interesting hardy plant that will succeed in any position. Strong 1 year old plants, 30 cts. each ; \$3.00 per doz.

Double Violets. Marie Louise.
